DEPLOYMENT

AWS Deploy
Heroku

I am a determined developer with a particular passion solving everyday problems in effective ways. Most recently I completed a full stack web development program at Coding Dojo where I specialized in Python and MEAN. I am dedicated to always learning and looking for an opportunity where I can make a meaningful contribution to a team and a community at large.

Projects

[Personal Blog](#) : This is simple website built by Angular. Please come visit and check who I am.

[Markets Buy&Sell](#) : Login & register, using CRUD operators for post, get, and delete. delete button for your post, contact button for others' post. (MEAN full-stack)

[Movie Reviews](#) : Using CRUD operators for post, get and delete. You can delete each movie or each review.
