SUMMARY

I am a determined developer with a particular passion for solving everyday problems in effective ways. Most recently, I completed a full stack web development program where I specialized in Python and MEAN. I am dedicated to constantly learning and looking for an opportunity where I can make a meaningful contribution to a team.

TECHNICAL SKILLS

Programming Languages:JavaScript, TypeScript, JQuery, Python, HTML, HTML5, es5, es6
Frameworks:Django, Flask, Angular, AngularJS, Bootstrap, NodeJS, ExpressJS
Databases:MongoDB, Mongoose, MySQL, NoSQL, mlab
Deployment:AWS deployment, Heroku

TECHNICAL PROJECTS

Portfolio:*Portfolio website site*
- Technologies Used: Angular, Node, Express, MongoDB

Buy & Sell:*E-commerce marketplace.*
- Built function that allows users to login and register an account
- Implemented a CRUD operation that allows customers to add, remove and save items
- Incorporated ability for users to post their own items and to browse other sellers listings
- Technologies Used: MongoDB, Express, Angular, Node

Squishy Tomatoes:*Movie review website.*
- Using CRUD operators for post, get and delete. You can delete each movie or each review.
Technologies Used: MongoDB, Express, Angular, Node

WORK EXPERIENCE

JS Remodeling(Fairfax, VA)   2010 - Present
General Contractor
- Coordinated with subcontractors as a project manager to successfully complete work orders before deadline.
- Monitored and managed three teams of four to five subcontractors without conflict of interest
- Efficiently managed time by setting a reasonable timeline for each project.
- Always prepared back up plan to complete tasks as scheduled in case of unexpected events.
- Dealt with various types of customers from initial meeting to after service which resulted in continuous relationship.
- Directly oversaw company operation including analyzing finances and performance
- Estimated budget for each project to forecast expected profits and losses.
- Researched contractor and vendor quotes to meet industry standard in order to fulfill company needs.
- Oversaw all customer services and client communication aspects of each individual project.

EDUCATION AND TRAINING

Coding Dojo (2018)
Completed a five month immersive full-stack web development program where I became a self-sufficient developer skilled in JavaScript, Python, and MEAN.
